

WOOD GLUES

PRODUCT GUIDE

Titebond
THE PRO'S ADVANTAGE

Our Bond is Our Word

For over 85 years, Titebond has been the industry leader in bonding wood and wood products. Our strong tradition and professional acceptance have been built on unsurpassed product quality, technical expertise, and customized solutions. Today we continue to offer the most comprehensive line of water-based wood glues that are ideal for woodworking, construction, home repair, and craft projects.

Look around—it's likely that Titebond was used in many of the items that surround you—cabinets, furniture, flooring, doors, windows, and more! The wood glues used by your favorite manufacturers are the same that are available to professionals and DIYers alike.

THAT'S WHY TITEBOND WOOD GLUES ARE PREFERRED BY PROS 7 TO 1.

Titebond®

PRODUCT SIZES

Titebond Wood Glues are available in multiple sizes to provide all user groups the best application for their project. Whether you keep a 4 oz. bottle in the drawer for home repairs, or you are a small cabinet shop going through multiple 5-gallon pails per week, Titebond has the right size for you. Drums and totes are also available for select products, where appropriate.

Call our Customer Service Experts at 1-800-669-GLUE (4583) to discuss your ordering needs.

Titebond has
the Right Size
for You!

4 oz. Bottle

Ideal for smaller applications, specific project needs, or to have around the house.

8 oz. Bottle

The perfect size for home repairs, smaller craft projects, and office/shop use.

16 oz. Bottle

Perfect for both PROs & DIYers. Easy to handle & wide mouth ideal for easy refill.

32 oz. Bottle

Pro size with easy to use "built in" handle in back. Good value in our largest applicator bottle.

Gallon Bottle

Our most popular choice among both PROs & serious hobbyists. Ideal for large projects or to refill smaller bottles.

2.15 Gallon PROjug

A proprietary size featuring dual handles and pressure valve for easy use!

5 Gallon Pail

Mostly used in larger cabinet shops or assembly operations. Pour spout on top.

Global Impact Made in the USA

As a 4th generation, family-owned business, we are proud that Titebond Wood Glues are sold, and utilized, throughout 65 countries around the globe. While our impact can be felt 5,000 miles away, all of our wood glues are formulated, manufactured, and packaged in the USA. Regardless of your skill level, type of application, or geographic location, Titebond remains committed to being there with you for every project.
